About real estate

The chamber project Vitality is located in the centre of Harrachov near the ski centre and offers beautiful views of the panorama of ski jumps. It offers a total of 18 apartments, of which the upper apartments are designed as spacious duplexes. Each apartment has a spacious south-facing terrace and is ideally designed for a family or even for investment with a guaranteed rental return.

The architecture of the house is designed in the traditional mountain style, as well as the interior design of the classic mountain chalets in a modern concept. The apartments are furnished to a high standard with materials such as premium three-layer wooden floors, Italian ceramic tiles in the bathrooms and quality furnishings. Underfloor heating is a matter of course.

The project will offer community breakfast area and social facilities, but also a garden wellness amphitheatre with a natural pond and an outdoor Finnish sauna. There are spacious garage spaces in the house as well as ample outdoor parking spaces. Of course, there is also a spacious elevator. Each apartment has its own ski boxes for ski storage.

The location of Harrachov is an ideal choice for sports-minded individuals and families who enjoy cycling, cross-country skiing, skiing and other sports. It offers a full range of activities in both the summer and winter season.

The developer of the project offers full turnkey management of the apartments.
