About real estate

We offer for sale a brand new duplex apartment 3+kt with a floor area of 101.9 sqm with a terrace of 4.9 sqm in a sought-after location of Prague 8 in Karlín. The apartment with two bathrooms is situated on the 5th floor of a Neo-Renaissance apartment building after complete reconstruction with an emphasis on preserving the original historical elements, thus offering a high standard of living with a unique atmosphere.

The apartment is dominated by a unique high living space with kitchen and dining room. The sun is brought in by two large studio windows. Upstairs is a bedroom with bathroom and study, which looks through a glass wall into the living room. The second room has the same glass "eye" above the kitchen. From the bedroom and bathroom it is possible to go out onto the green terrace.

Three-layer wooden parquet and seamless rubber floors in the living rooms. Travertine stone tiles in the entrance hall. The bathrooms have cast terrazzo, stone tiles and travertine tiles. Concrete sink, Vitra, Kartell, Grohe and Kaldewei fittings. The heating is underfloor in all rooms (separately regulated), the source is the Viessmann Vitodens gas condensing boiler. In each living room there is a multisplit air conditioning. The windows are wooden and aluminium with triple glazing, large-format Solara studio windows, Roto roof windows. Height of ceilings in living rooms 260 - 415 cm. The construction system is designed using a steel-concrete horizontal load-bearing structure, vertical load-bearing structures are in combination of Porotherm Aku 250mm thick and steel columns. In the interior, the steel and original wooden elements of the historical roof truss are admitted. The apartment has a cellar (7,83 sqm). The house has a new elevator for up to 7 people.

Karlín is one of the most sought after and exclusive locations, as evidenced by the prevailing architecturally and historically extremely valuable tenement buildings. Despite the city centre itself, it is a quiet residential area with a significant proportion of greenery. The location within the city is ideal in terms of transport accessibility and amenities. Right in front of the house there is a tram stop Urxova, within walking distance of metro station B - Křižíkova or Invalidovna. In the vicinity there are kindergartens and primary schools, many restaurants, cafes and opportunities for cultural and sports activities. For relaxation and recreation, you can use, among others, Kaizl or Sudek's orchards, Lyčkovo Square, Vítkov Park or the Vltava River embankment.

Energy efficiency B - very economical.
