## About real estate

The new residence with a total of 19 apartments is being built in two three-storey apartment buildings in a quiet part of Silesian Ostrava. The residential complex creates two courtyards - the north-western one, which serves as the entrance parterre for both buildings and includes an entrance for cars, an entrance from the street and above-ground parking spaces for visitors. The southeast courtyard is situated between the two houses and serves the residents as a private quiet zone/garden with trees designed for relaxation with a dedicated area for children. The development fully respects the surrounding development of larger detached and semi-detached houses.

The apartment of 4+kt with a floor area of 119.9 sqm is located on the fourth floor of building A and includes an entrance hall with entrance to the bathroom with shower and toilet. In addition, there are three bedrooms (one of which has access to the loggia), another separate bathroom with bath and a spacious living room with kitchenette and access to the loggia (16.6 sqm).

The standards of the apartments include quality tiles and floating wooden floors, air conditioning, hot water underfloor central heating system (heat source cascade of four air/water heat pumps), windows - aluminum, with thermal insulation triple glazing, fireproof entrance door, preparation for the kitchen and more.

Slezská Ostrava is a popular place for living. It will satisfy the needs especially of those who expect quiet living with excellent access to all amenities and services. Shops, school and health facilities, places for entertainment, relaxation and recreation are all available within walking distance.
