## About real estate

We offer for sale a four bedroom apartment of 109 sqm in a newly built luxury project located in the heart of Borik - a developing area of Zadar.

This apartment is located on the ground floor. The apartment includes a terrace with a front garden of 88 sqm. There are also three bedrooms, two bathrooms and a spacious living room connected to the dining room and kitchen. The interior reflects the principles of sustainability with smart home features available to its residents. Thanks to the large aluminium windows, the apartment gets plenty of natural light, while the electrically controlled blinds allow for possible blackout. The standard of the entire project is of a very high standard, with air conditioning, underfloor heating and smart home as a matter of course.

The architecture and design of the building honours the traditional local Adriatic building style, its elements integrated with new trends combined with Swiss innovative technologies. The whole complex is connected by green areas with a park and a children's playground. Parking is provided in the underground garages in the basement, where there are also storage spaces.

The location of the project is unique, located a short walk from the local beach and marina. On foot you can reach the historic centre of Zadar within 10 minutes with a pleasant walk along the sea. In addition, Borik offers plenty of great restaurants, shops and there is also the renowned 5\* Falkensteiner hotel, which has a great spa and wellness area open to the public. The project also includes a shopping mall where residents can not only buy groceries, fresh baked goods, drugstore, but also use the gym, spend time in a cozy restaurant with a wonderful view of the sea coast and the local marina.

The project is scheduled for completion in 4Q 2024.
